

NURTURE BY STEELCASE

Nurture by Steelcase is a company dedicated to providing user-centered solutions in healthcare. It focuses on improving the healthcare experience for three groups: patients, caregivers and partners in care (family and friends). Nurture views the Healthcare environment as an integral part of the healing process. The company is dedicated to providing holistic solutions that focus not only on product, but space as a whole, delivering research-driven solutions to complex challenges in healthcare environments.
